PROFESSIONAL EXPERIENCE

WITT Hub, Ottawa, Canada

Jan 2024 - Present

Front-End Developer

Develop and maintain front-end features for the Co-Parent web application using React.js, ensuring smooth user interactions and seamless data synchronization.

- Developed and optimized the front end of the Co-Parent web application using React.js, effectively utilizing components, hooks, and CSS frameworks.
- Integrated RESTful APIs via Axios to enable real-time data synchronization, enhancing the user experience.
- Collaborated with UX/UI designers and participated in Agile meetings, including sprint planning, daily stand-ups, and retrospectives.
- Utilized Trello to organize tasks, track progress, and manage project timelines effectively.
- Created weekly progress reports for the senior developer to track milestones and identify potential blockers.
- Conducted extensive testing and debugging to improve code efficiency and reduce bugs, ensuring optimal application performance.
