Objective

Proficient Front-End Developer with a strong background in web design and development. Experienced in creating responsive and user-friendly websites using HTML, CSS, JavaScript, React, Next.js, PHP, and MySQL. Possesses strong knowledge of UX/UI principles to optimize user experience. Proficient in working with CMS platforms like WordPress. Adept at collaborating with cross-functional teams to deliver high-quality projects. Seeking opportunities to leverage my skills in a collaborative environment to contribute to impactful projects and achieve professional growth.

Work Experience

Front-End Developer **(2024 - Present)**

Women IT Teleworkers (WITT), Ottawa, Canada (Remote)

- Developed and maintained the front-end of the Co-parent web application using JavaScript, React.js, Components, MongoDB, HTML, and CSS.
- Conducted code reviews to enhance code quality and ensure adherence to coding standards.
- Collaborated with UI/UX team, backend developers, and stakeholders to provide technical expertise and contribute to project planning and estimation.

Web UX/UI Designer & Developer **(2021 - 2023)**

Freelance

- Conducted comprehensive client needs analysis and delivered data-driven design solutions.
- Executed user experience research, including interviews and surveys, to identify and understand potential users.
- Managed information architecture and interactive design for website redesign projects.
- Developed clickable prototypes using Figma and conducted usability and A/B testing.
- Built websites using HTML, CSS, JavaScript, and WordPress.

Educator **(2018 - 2021)**

Longueuil, Canada (On-site)

- Planned educational materials to suit the learning needs of students.
- Managed and communicate with students to identify their needs.
- Provided constructive feedback on student work.
- Collaborated with colleagues to plan and coordinate teaching activities.

Translator **(2016 - 2017)**

Unisage Solutions Inc, Montreal, Canada (On-site)

- Translated construction software applications from Persian to French and vice versa.
- Utilized computer programs such as Word and Excel for precise translations.
- Coordinated with internal team members to fulfill translation requirements.
