Objective

Proficient in web design and development, with skills in creating visually appealing and user-friendly websites using HTML, CSS, JavaScript, React, PHP, and MySQL. Experienced in responsive design to ensure seamless functionality across various devices. Skilled in utilizing frameworks and libraries such as Bootstrap. Strong knowledge of UX/UI principles to optimize user experience. Capable of working with CMS platforms like WordPress. Seeking opportunities to leverage my skills and enthusiasm in a collaborative environment, where I can contribute to meaningful projects and continue to grow professionally.

Work Experience

Front-End Developer (2024 - Present)

Women IT Teleworkers (WITT), Ottawa, Canada (Remote)

- Developing the front-end of the Co-parent web application using JavaScript, React.js, Styled Components, MongoDB, HTML, and CSS.
- Participating in code reviews to offer constructive feedback aimed at enhancing code quality and maintaining coding standards.
- Collaborating closely with the UI/UX team, backend developers, and stakeholders to provide technical expertise and contribute to project planning and estimation.

Web UX/UI Designer & Developer (2021 - 2023)

Freelance (Self-employed)

- Conducted in depth analysis of client's business needs, defining problems, and delivering data-driven solutions.
- Executed user experience research, including interviews and survey development, to identify and understand potential users.
- Took charge of information architecture and interactive design for a website redesign project.
- Developed clickable prototypes using Figma. Implementing usability testing and A/B testing with potential users.
- Building websites using HTML, CSS, JavaScript, and WordPress.

Teacher (2018 - 2021)

Coccinelle, Longueuil, Canada (On-site)

- Planned educational materials to suit the learning needs of students.
- Managed and communicate with students to identify their needs.
- Provided constructive feedback on student work.
- Collaborated with colleagues to plan and coordinate teaching activities.

Translator (2016 - 2017)

Unisage Solutions Inc, Montreal, Canada (On-site)

- Translated construction software applications from Persian to French and vice versa.
- Utilized computer programs such as Word and Excel for precise translations.
- Coordinated with internal team members to fulfill translation requirements.
